Subject: Kootenai Tribe requests conference call G2G on ID Se SSC

Heads up. Let me know when folks are thinking it would be a good time to try to schedule this and who should be the "must have" attendees. They have agreed to do this via a call. So do we typically do VTC or have a preference for that? And would this be with Dan or the RA?

Thanks.

Morning Lisa,

It has been recommended that we just have one call - G2G since we already started G2G with them late last year. Perhaps a brief synopsis in the beginning to bring everyone up to date on the site specific criteria for Se. a phone G2G call will be fine. Just need to come up with some dates. Can you give us some dates that may work for your staff and then I will send out to our participants.

Carol – thanks for reminding me. Do we need to schedule a staff level informational call first, so that I can go through with you and anyone else where EPA's review is on the Se SSC?
And if the tribe would like G2G could we do that via phone again?

Lisa, where do we stand on the G2G on the selenium issue? I know with the furlough a lot of meetings were cancel and haven't been rescheduled. This is one G2G that happened too. The tribe would still like to have a G2G on this topic... Carol
